

# Test Document - Page 1

This is page 1 of a test PDF document created for testing the PDF processing tool.

## Features to test:

- PDF Compression - Reduce file size while maintaining quality
- PDF Splitting - Split PDF at specified page numbers
- PDF Merging - Combine multiple PDF files into one
- WebAssembly Powered - Fast processing in the browser
- Privacy Safe - All processing happens locally

This is a sample content area for testing PDF processing capabilities.

# Test Document - Page 2

This is page 2 of a test PDF document created for testing the PDF processing tool.

## Features to test:

- PDF Compression - Reduce file size while maintaining quality
- PDF Splitting - Split PDF at specified page numbers
- PDF Merging - Combine multiple PDF files into one
- WebAssembly Powered - Fast processing in the browser
- Privacy Safe - All processing happens locally

This is a sample content area for testing PDF processing capabilities.

# Test Document - Page 3

This is page 3 of a test PDF document created for testing the PDF processing tool.

## Features to test:

- PDF Compression - Reduce file size while maintaining quality
- PDF Splitting - Split PDF at specified page numbers
- PDF Merging - Combine multiple PDF files into one
- WebAssembly Powered - Fast processing in the browser
- Privacy Safe - All processing happens locally

This is a sample content area for testing PDF processing capabilities.

# Test Document - Page 4

This is page 4 of a test PDF document created for testing the PDF processing tool.

## Features to test:

- PDF Compression - Reduce file size while maintaining quality
- PDF Splitting - Split PDF at specified page numbers
- PDF Merging - Combine multiple PDF files into one
- WebAssembly Powered - Fast processing in the browser
- Privacy Safe - All processing happens locally

This is a sample content area for testing PDF processing capabilities.

# Test Document - Page 5

This is page 5 of a test PDF document created for testing the PDF processing tool.

## Features to test:

- PDF Compression - Reduce file size while maintaining quality
- PDF Splitting - Split PDF at specified page numbers
- PDF Merging - Combine multiple PDF files into one
- WebAssembly Powered - Fast processing in the browser
- Privacy Safe - All processing happens locally

This is a sample content area for testing PDF processing capabilities.
